

Your elevator. *Unlike any other.*

Most home elevator cabs keep it simple — stained or painted wood panels, standard finishes, understated interiors. Southeast Elevator now offers something entirely different: 100% real natural stone cab walls. The one finish nobody expects — and everybody notices.

Natural Stone — A NEW STANDARD FOR CAB INTERIORS

Wood has always been the default — familiar, easy, and indistinguishable from every other elevator. Natural stone changes that entirely. The texture, depth, and character of real marble, slate, or quartzite turns a functional space into a design statement that sets your home apart.

Thanks to advanced engineered stone panel technology, we can now install genuine natural stone in your cab at a fraction of the weight and cost of traditional stone, with no structural changes to your elevator system.

WHAT STONE BRINGS TO YOUR CAB

Instant Distinction

No two slabs are alike. Your cab becomes a one-of-a-kind finish that can't be replicated.

Timeless material

Stone doesn't date. It won't chip, peel, or go out of style the way painted finishes do.

Numerous styles

From sleek dark slate to warm marble veining — a style to match any interior design vision.

Texture and Depth

Stone brings dimension that paint and stain can't — light plays differently across every surface.

Pairs with anything

Coordinates with wood accents, metal hardware, glass gates, and custom lighting.

Backlit potential

Select styles glow when backlit — a dramatic option for premium installations.

THE DIFFERENCE IS VISIBLE

Standard Wood Finish

- Painted or stained — seen in most elevators
- Flat, uniform, no variation
- Chips, scuffs, and fades over time
- A trusted, familiar look

Natural Stone Finish

- Real stone styles — each one unique
- Rich texture, depth, and natural grain
- Resists chips, scuffing, and fading
- A finish guests notice and remember

The finish speaks for itself.

Four styles shown. A range of styles to choose from.

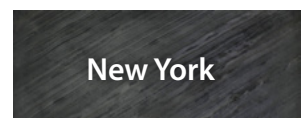

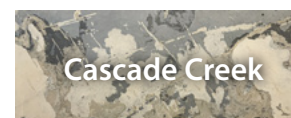

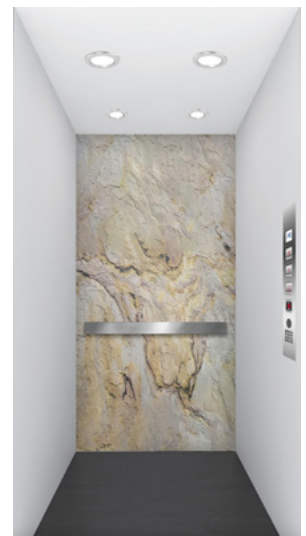

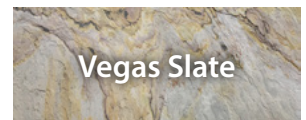

GOOD TO KNOW

- 100% real natural stone — not a composite or printed surface
- Available on new installations and existing cab upgrades
- Installs over existing cab walls — no structural changes needed
- Works with any Southeast Elevator cab configuration
- Physical samples available — ask your representative
