

AUTOMATIC GATES

Safety • Convenience • Style

Ensure An Effortless Experience For Every Passenger

Accordion Gate

Accordion Gate Finishes:

Brushed
Stainless Steel

Bronze

Dark Bronze

Choice of clear, smoked, or dark bronze acrylic panels.
Solid or perforated aluminum panels.

Eliminate the need to manually open or close the gate. Smooth operation on every floor.

★ Convenience & Accessibility

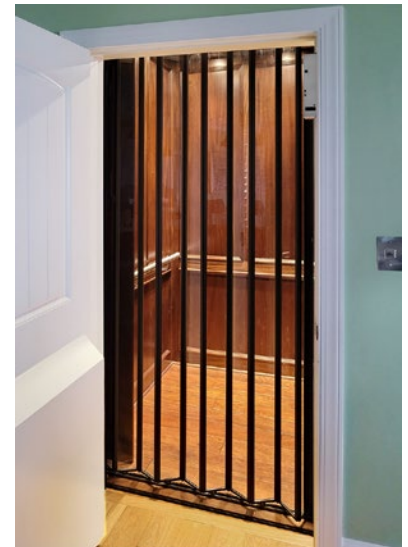

Entering and exiting the elevator is hassle-free. For individuals with mobility challenges, pushing strollers, carrying items, or transporting pets and young children, this is invaluable.

★ Enhanced Safety

Reduce service calls. Automatic gates make it difficult to unintentionally leave a gate open, ensuring the elevator can be called to different floors without any issues.

★ Customization Options

Available in a variety of finishes and styles. Automatic gates can be tailored to match your aesthetic preferences and can often be added to existing accordion gates as well.

At Southeast Elevator, we understand the importance of seamless accessibility and safety within your living space.
